The coming years will present exciting challenges for labor and community groups. Unions and community-based organizations will need skilled staff in order to tackle the mounting needs placed before them and their constituents.

The UC Berkeley Labor Center will offer a Lead Organizer Training on April 20-22, 2016, featuring these topics:

- Staff/Leadership Development
- Wellness/Healthy LifeStyle Exercises
- Training/Teaching/Learning Skills
- Strategic Campaign Planning
- Community-Labor Coalition Building
- Lead Organizing Techniques/Tools

This workshop is offered for those union and community activists who hold lead organizing positions within their organizations, or will be assigned the task in the near future. Groups entering contract bargaining, conducting campaigns, or undertaking issue-oriented activities during 2016 should consider sending their lead organizers to this training.

The three-day training will be facilitated by UCB Adjunct Labor Specialist Maria L. Abadesco.

“The California Lead Organizer Institute is a well-rounded training for all lead organizers. I was leading campaigns when I participated and it helped me focus on self-care and team building. There is no better primer for union and non-profit staff leading campaigns. The best part is learning with like-minded folks from across the entire labor movement and community groups too! We continue to support each other from the 2011 course!”

—Amy Hines, Higher Education Director, UPTE-CWA Local 9119

“SEIU Local 521 has sent new internal lead organizers for the past several years to this training. Staff that have attended have found it helpful in their day-to-day work. What is unique about the UCB Labor Center’s lead training is the focus on strategic thinking in regards to campaign work and also the development of rank and file leaders in the organizing model of mobilizing and activating their fellow union members into action.”

—Luisa Blue, Chief Executive Officer, SEIU Local 521

The 2016 Lead Organizer Training welcomes participation from people of all races, ethnicities, national origins, and gender identities.

UC BERKELEY
LABOR CENTER

April 20–22, 2016
